## Statement of the Leadership Council of the Islamic Emirate of Afghanistan on the occasion of the commencement of Al-Faath Operations

Help from Allah and a speedy victory. So give the good news to the Believers. S.61A.13

After the inception of the legitimate Jihad of the people of Afghanistan against the invading coalition under the leader of America and the vast resistance sprawling on a period of nine years, the invading Americans and their blind coalition followers willy-nilly reached a point that the NATO foreign ministers in a recent gathering had to take a decision that they should withdraw their morale-sagging troops from Afghanistan.

The invaders may paint the disgraceful defeat of their forces at the hands of the Afghan Mujahideen as they like; it is up to their defeatist logic. But the ground realities in Afghanistan show that the retreat is a clear-cut defeat of the non-believing forces versus the forces of belief and Islamic faith.

While believing that with the help of Allah (Swt) and selfless support of the people of Afghanistan, all foreign invading forces will ultimately face defeat, the Islamic Emirate of Afghanistan meanwhile once again emphasizes on the unconditional and immediate withdrawal of all foreign invading forces from Afghanistan. To achieve this end, the Islamic Emirate of Afghanistan considers the armed Jihad the only mean to reach that destination. In order to expedite the momentum of the Jihadic activities, the Islamic Emirate announces this spring operation by the name of Al-Faath (victory) to be launched against Americans, NATO members and their surrogates.

Al-Faath is a prideful word in the history of the Muslims. It has been used in the Holy Quran to mean success, upperhandness and victory. A chapter out of 114 chapters of the Holy Quran is named Al - Faath. Muslims were favored with Al-faath.—victory on the ground of Al-badar battle in the second lunar year of Hijra. In this battle, Muslims killed Abu Jahal, the leader of the non-believers. The second Al-Faath came on the eighth years of Hijra. It was the victory of Mecca. This is considered the beginning of establishment of Islamic rule in the world. So, the Leadership Council of the Islamic Emirate of Afghanistan chose this name to be the name of this spring operations against the Americans and NAT forces. Like the Badar, the Conferarates battles and the Victory battle of Mecca, we hope these operations will be successful operations against the global invading forces, if Allah willing. The Al-Faath operations will target the invading Americans, the NATO military personnel, foreign advisers, spies who pose as foreign diplomats, members of the Karzai stooge administrations and members of the cabinet, members of the parliament, personnel of the so-called ministry of defense, intelligence department, ministry of justice, ministry of internal affairs, contractors of foreign and domestic private security companies, contractors and personnel of military logistics and military constructions companies and all supporters of foreign invaders who are working for the strengthening of foreign domination.

The Al-Faath Jihadic operations will start in 10<sup>th</sup> May 2010 this year to include operations against the defeated foreigners and their surrogates all over the country. It will comprise of tactics of successful tips and runs operations, inter-cities operations, and laying siege to cities, blockade of roads of military centers, use of IED, assassination of government officials, detainment of foreign invaders and martyrdom-seeking operations as needs be.

1. Prior to the commencement of Al-faath operation, we urge all military intelligence, judicial and administrative officials to part ways with the surrogate and moribund administration and instead, side with their own people against the invaders in order to force them pull out of the country. If police men or army soldiers surrender to Mujahideen, their work will be appreciated by Mujahideen via bestowing on them material incentives. Those who support the non-believers will be considered as one of them and will be punished for their betrayal.
2. Owners and workers of transportations and construction companies, who transport logistical goods for the foreigners or build their construction facilities, should put an end to these illegitimate activities. Otherwise, Mujahideen will deal with their personnel and technical equipments in the same manner as they deal with the foreign invading troops and their equipments. They will kill their personnel and destroy their equipments. This is because their activities help extend the occupation of the beloved country Afghanistan.
3. Those foreign investors, who make investment in Afghanistan to ensure American interests in Afghanistan and their benefits invariably end up in the pockets of the foreigners instead of the people, should avoid making such investment. Instead, they should make investments in sectors which benefit them and the people rather than the invaders. Nor they should bolster the foreigners. Mujahideen will destroy and wipe out everything that is considered supporting the foreign invaders. Then none should have reason to complain
4. The Islamic Emirate of Afghanistan assures the Muslim Mujahid people that the days of the liberation of the country from the brutal claws of the invaders are around the corner thanks to the help of Allah (SwT) and your unforgettable sacrifices. You are urged to join the ranks of Mujahideen in this historical and critical phase in order to pound, kill and obliterate the invading forces. You are urged to strengthen the lines of resistance with your persons.
5. The leadership of the Islamic Emirate of Afghanistan earnestly requests the honorable and brave Mujahideen to pay attention to the safety of life and property of people and make every effort to protect them during all operations including the operation Al-Faath. Pleasure of Allah(Swt) and prosperity of people should make your sole goal of Jihad. This is in order to ensure the sanctity of the sacred goals of Jihad.
6. Take people advice and views in all your activities; show strong determination, sagacious approach, comprehensive planning and utilize all successful experiences of the past. Concentrate your thought and efforts on Jihad and oversee that the Mujahideen are not involved in unnecessary activities. Bring momentum to the strongholds of Jihad with the none-believers so that an Islamic government can be established and seek help and strength from All (Swt) in your Jihadic and charity works.

O ALLAH, MAKE THEM AND THEIR WEAPONRY A BOOTY FOR THE MUJAHIDEEN  
YOU ARE OUR SUPPORT AND YOU ARE OUR ONLY VICTOR; BY YOUR ORDER WE ATTACK;  
BY YOUR ORDER WE RETREAT AND BY YOUR ORDER WE FIGHT  
O ALLAH, THE SKY IS YOURS; THE EARTH IS YOURS; THE SEA IS YOURS,  
SO WHATEVER FORCES THEY HAVE IN THE SKY, DROP THEM.  
DESTROY ALL THEIR FORCES IN EARTH AND SINK ALL THEIR FORCES IN SEA  
O ALLAH, DEAL WITH THEM FOR VERILY THEY CAN NEVER DISABLE YOU  
O ALLAH, RETALIATE UPON THEM, AFFLICT THEM LIKE YOU DID TO PHARAOH AND HIS NATION  
O ALLAH DEFEAT THEM, DESTROY THEM O THE ALL-STRONG, THE ALL-MIGHTY
